Allowance

1. Examiner has reviewed and considered Applicants comments as indicated on pages 4 – 6 of Applicant's response dated 01/05/2006 and per Applicant's comments, regarding claims 1 – 14 claims are now in condition for allowance.

The following is an Examiner's statement of reasons for allowance. The prior art of record does not teach or fairly suggest at least:

A method for constructing a business application system by using a framework described by an object-oriented language, comprising:

“a screen system class group, a report system class group and a business logic system class group, which respectively inherit said system core class group, wherein said three system class groups are related to each other through said system core class group so that said report system class group and said business logic system class group can start and terminate their processing on the basis of the data inputted through the screen provided by the screen system class”, as best illustrated by figures 1 and 3 and in such a manner as recited in independent claims 1,7,11 and 13.

Therefore, claims 1 – 14 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
